

Dear Parents,

I wish to take a moment to congratulate you all on completing Kindergarten! You did it and I am looking forward to being your First Grade Teacher next year. You deserve a summer filled with all of the joys that warm weather brings. While enjoying your time together I encourage you to read with your family. Cuddling with a special person at the end of a day and sharing a story are wonderful endings to an active day! Additionally, it is a fun way to reinforce reading skills mastered in Kindergarten and necessary in First Grade. Keeping a journal is another activity that your future first grader may enjoy while strengthening his or her language arts skills. Children are encouraged to use a calendar to record the day and date and use a clock to identify and record the time at the top of each journal page. Your child is then ready to record the day's activities. Journal entries may be pictures with a word or sentence describing it, a story/narrative telling about the day, items glued to a page that represent the day, or descriptions of books read (include title and author, a brief description, and why you liked the book/story). Remember that a word or sentence accompanying a picture, illustration, or special item is always a nice addition. Math skills may be practiced and reinforced as your child experiences his day. Counting steps or items seen, identifying shapes of everyday items, building with blocks or legos, and adding numbers to a list are all activities that will help reinforce math skills. I have included a sight word list for you to review over the summer and some number sentences to help keep your math skills sharp. I can't wait to see your completed work! Above all, I encourage you to have a summer filled with family, friends, and fun!

Have a Wonderful Summer!

Peace and Prayers 🙏

Mrs. Jody M. Lampasso
